Traveling Education Programs to Your Library!

Specially Themed Programs:

We Are Our Stories

Since the beginning of man, people have gathered around the fire to tell tales of how the world and its parts came to be. In this multi-cultural event, the actors of Little Fish Theatre use the age old tools of the shaman and story tellers to bring you tales of the natural world from around the globe!

Ocean Planet: Animal Tales

Our watery world is overflowing with legends and tales of the creatures who live here. Are they true? You decide! Join our narrators in this interactive program and meet the stars of the stories live and in person. Includes live animals.
